The members of team BTC City Ljubljana have in the past season – only their third on the professional level – achieved numerous excellent results, including the first win on the Women's WorldTour and the final 12th ranking in this most prestigious event on the women's cycling tour.

Along with their support team, the BTC City Ljubljana cyclists prove over and over again that they are real athletes who take on each race with full commitment and without any compromises, they are training hard and following the goals set. With their work, perseverance, amazing energy, and determination they set an example for the young generations and provide them with a great starting point to lead a sports-active, healthy and responsible life.

SPOŠTOVANE KOLESARKE IN PODPORNIKI KOLESARSTVA!

DEAR CYCLISTS AND SUPPORTERS OF CYCLING!

Stopiti iz cone udobja in preizkusiti nekaj novega. Da je to najboljši način za rast, v sodelovanju z Mestno občino Ljubljana in s Kolesarskim društvom Rog dokazujemo vse od leta 2014. Z ekipo BTC City Ljubljana smo začeli pisati globalno športno pripoved. Kolesarke ekipe so v zgolj treh letih prikolesarile v sam svetovni vrh profesionalnega ženskega kolesarstva. In s seboj ponesle vse nas.

Dekleta so okrepila prepoznavnost ekipe, družbe BTC in svojih pokroviteljev ter pomagala umestiti Slovenijo ob bok državam s prepoznavno kolesarsko kulturo. Razmah slovenskega (ženskega) kolesarstva ima pozitivne družbene, okoljske in gospodarske učinke, ki so še posebej vidni v športni in turistični panogi.

Kot vrhunske športnice so nam kolesarke vzor in nas opogumljajo za drzne poteze. Ena takšnih je vstop družbe BTC v partnerstvo z družbo Gorenje za oživitev blagovne znamke Rog. S tem smo naši kolesarski zgodbi dodali še proizvodno dimenzijo, ljubitelje kolesarjenja pa razveselili s kultnimi kolesi Pony v osveženi podobi.

Draga dekleta, hvala za vaš trud in iskrene čestitke za dosedanje uspehe. Začenja se vaša četrta tekmovalna sezona, v kateri bomo zopet ponosno navijali za vas. Vsem ljubiteljem kolesarjenja pa povabilo: se vidimo junija na 36. Maratonu Franja BTC City.

Step out of your comfort zone and try something new. This is the best way to grow, which the BTC Company, the City of Ljubljana, and Cycling Association KD Rog have been proving since 2014. With team BTC City Ljubljana, we began a sports story that extends into the global arena. In merely three years, team members have made it to the very top of professional women's cycling worldwide. And they have taken all of us with them.

The girls have made the brand of their team as well as that of the BTC Company and their sponsors more recognisable. They helped put Slovenia on the map of countries that have developed a prominent culture of cycling. The advancement of Slovenian (women's) cycling has had a positive impact on the society, the environment, and the economy, which is most readily visible in the fields of sports and tourism.

As top athletes, these cyclists act as role models who encourage us to make bold moves. One such move is the BTC Company's partnership with Gorenje, which aims to revive the Rog brand and adds the dimension of production to our story. Moreover, it will make fans of cycling very happy with the updated version of the legendary Pony bike.

Dear girls, thank you for your effort and congratulations on everything you have achieved so far. Now, you are at the beginning of your fourth racing season, during which we will once again support you with pride. And to all fans of cycling, an invitation: see you in June at the 36th Marathon Franja BTC City.

Step out of your comfort zone and try something new.

NOV MEJNIK V RAZVOJU SLOVENSKEGA ŽENSKEGA KOLESARSTVA

NEW MILESTONE IN THE ADVANCEMENT OF WOMEN'S CYCLING

MAJA OVEN

Direktorica ekipe BTC City Ljubljana
Director of Team BTC City Ljubljana

Nekje sem prebrala, da zahtevne poti vodijo do čudovitih krajev. To misel lahko razumemo dobesedno – samo pomislite, kako lepi kotički čakajo na nas, da jih s kolesom odkrijemo … Hkrati pa ta misel pomeni, da lahko vztrajnost, predanost in volja uresničijo sanje, presežejo pričakovanja in nas ponesejo nad oblake.

S temi vrlinami so kolesarke ekipe BTC City Ljubljana postavile nov mejnik v razvoju slovenskega profesionalnega ženskega kolesarstva in se ustoličile v svetovni eliti najboljših predstavnic te športne discipline. Kako ponosni smo na njih! Na to, da se kosajo z najboljšimi v svoji sredi, da v največjih velemestih zanje navijajo milijoni navijačev, in da na svetovnem kolesarskem podiju odmevajo njihova imena in z njimi slovenske blagovne znamke. Hkrati smo ponosni tudi na to, da tudi sami še raje sedemo na kolo – za premagovanje razdalje, samih sebe, za družbo, sprostitev in za užitek.

V družbi BTC nas posamični in ekipni dosežki kolesark z najodmevnejših kolesarskih preizkušenj navdajajo s ponosom. Kolesarke vedno znova potrjujejo, da zasluženo že tri leta uživajo našo podporo. Njihovi zvesti spremljevalci ostajamo tudi letos, ko se že četrtič podajajo v lov za lovorikami. Z radovednostjo pričakujem, kam jih bo pot popeljala letos. Prepričana pa sem, da bodo dekleta zopet odkrila čudovite nove kraje.

I have read somewhere that difficult roads lead to wonderful places. We can interpret this thought literally: just imagine what beautiful corners of the world wait for you to discover them on your bike. At the same time, it suggests that persistence, dedication, and willpower are what makes dreams come true, push us to surpass all expectations, and lift us above the clouds.

Exhibiting these very strengths, women cyclists of team BTC City Ljubljana have set a new milestone in the advancement of professional women's cycling in Slovenia and established themselves among the global elite competing in this sport. We could not be more proud of them! Proud of how they can race alongside the best top-level athletes, how millions of fans in even the biggest of cities cheer for them, how their names are called to the global cycling stage, and with them the names of Slovenian brands. We are proud of how they encourage us to get on a bike, brave distances, overcome our own limitations, socialise, relax, and enjoy life.

In the BTC Company, individual and team efforts made by our cyclists as they compete in world-renowned bike races fill us with pride. They keep proving that our support, now lasting no less than three years, is well deserved. And we remain their loyal supporters this year, watching them set their sights on new victories for the fourth year in a row. I am curious to see where the road takes them this year and confident that the girls will once again discover wonderful new places.

USPEHI NE PRESENEČAJO NIKOGAR VEČ

SUCCESS STORIES NO LONGER COME AS A SURPRISE

GORAZD PENKO

Športni direktor in trener poklicne ženske kolesarske ekipe BTC City Ljubljana
Sports director and coach of the professional women's cycling team BTC City Ljubljana

Ženske na specialnem cestnem kolesu so postale tako rekoč del vsakdanjika. Ne presenečajo več nikogar, ki spremlja šport in zlasti kolesarstvo. Vsakoletni napredek je vznemirljiv in se dviga v nebo tako hitro kot najzmogljivejša nadzvočna letala. Proizvajalci in prodajalci kolesarske opreme ter kolesarski turizem bodo v prihodnosti ženske na kolesu še kako potrebovali. Nekateri se tega že zavedajo, ostali pa se bodo kaj kmalu, če UCI s svojimi predpisi ne bo obremenil proračunov ekip, kot jih je v moškem kolesarstvu, kjer bi ali bo brez finančnega vložka bogatih oligarhov in bogatašev Bližnjega vzhoda WorldTour počasi propadel.

Tudi ekipi BTC City Ljubljana je uspelo to hitro vzletajoče letalo potisniti vsaj nekaj sto metrov visoko, na kar smo in sem zelo ponosen. Vesel sem vseh dobrih dosežkov, saj smo jih realizirali v zelo kratkem času. Seveda sem najbolj vesel lanske zmage na WorldTour dirki v francoskem Plouayu. Veselje in občutek ob zmagi sta bila tudi zame izjemna in edinstvena, četudi sem se podobnih uspehov že mnogokrat veselil v moškem kolesarstvu.

Vsem dekletom na kolesu v profesionalnem ženskem kolesarstvu gredo čestitke za izkazan pogum in drznost, ki jo kažejo na dirkah. Tudi v prihodnje jim želim čim več uspeha pri promociji ženskega kolesarstva.

Women on racing bicycles have become a part of everyday life, so to speak. They come as no surprise to anyone who keeps in touch with sports, especially with cycling. The advancement of the discipline, which is notable with each passing year, is exciting and seems to be sky-bound as fast as any supersonic jet. Manufacturers and vendors of cycling gear, as well as cycling-oriented tourism, will definitely need women on bikes in the future. Some are already aware of it, while others will become aware of it quite soon – that is, unless UCI regulations impose a significant burden on team budgets, as has been the case in men's cycling, where the WorldTour would (or will) slowly fall apart without the financial contributions of oligarchs and rich investors from the Middle East.

In any case, team BTC City Ljubljana have managed to fly this jet at least a couple of thousand feet high soon after take-off, and we are very proud of them. I am happy about all the great results so far, especially since they have all been achieved in such a short period of time. I am particularly happy about last year's win in the WorldTour race in Plouay, France. The sheer joy and positive feelings accompanying the win were exceptional and unique, even though I had celebrated similar results many times over in men's cycling.

All the girls riding on the professional women's cycling level deserve congratulations for their courage and the boldness they display in every single race. I wish them the best of success in promoting women's cycling in the future.

Do not look for happiness and do not wait for it because it will come by itself

Kaj ti pomeni zmaga na WorldTour dirki?
Z zmago na WorldTour dirki sem si dokazala, da sem dovolj močna, da tekmujem z najboljšimi kolesarkami na svetu. Zagotovo je to najboljši rezultat v moji kratki profesionalni karieri v cestnem kolesarstvu. Ta trenutek mi je dal novo motivacijo, samozavest in moč za naslednji veliki korak.

Kakšen je bil občutek zmagati na GP de Plouay?
Na začetku nisem bila prepričana, če sem zmagala! Bila sem zelo vesela, to je bil najlepši dan v moji karieri, čeprav sem kar težko verjela. Bil je pozitiven šok, z besedami ne znam opisati, kaj se je zgodilo.

Si med dirko pomislila na to, da lahko zmagaš?
Dan pred dirko smo kolesarili po trasi in moj trener Gorazd mi je dejal, da je to odlična dirka zame in da je leta 2000 na svetovnem prvenstvu tu zmagala kolesarka istega tipa.

Nasmehnila sem se in rekla, da je v moškem kolesarstvu to mogoče, v ženskem pa ne. Na startu sem bila brez pričakovanj, moja glava pa je bila popolnoma prazna.

Je bila dirka težka?
Da, dirka je bila težka. Posebno drugi del, bilo je veliko napadov močnih kolesark. Moja naloga je bila samo slediti tem napadom, a vseeno je bila to moja najtežja naloga.

Kakšni so tvoji cilji za naslednjo sezono?
Izboljšave z ekipo. Dobro dirkati in zaupati vase. Lepo pa se bi bilo veseliti ponovne WorldTour zmage.

Najljubša dirka
Tour des Flandres.

Kolesarim že od
2000.

Kaj te je kolesarjenje naučilo?
Kolesarjenje me je naučilo samodiscipline, samokontrole, obvladovanja čustev, sprejemanja lastnih omejitev, upoštevanja pravil.

What does winning the WorldTour race mean to you?
The victory in WorldTour showed me that I'm strong enough to race with the best women in the world. For sure, it's the best result in my short professional career on the road. That moment has given me even more motivation, self-confidence and power to make another big step forward.

What did it feel like when you won GP de Plouay?
In the beginning, I didn't really believe I won such a big race! I was very happy, it was the most beautiful day in my career; however, at the same time it was hard to believe that we did it. I was positively shocked and left speechless to explain what happened.

During the race, did you imagine you would win?
One day before the race, we were riding on the course and my coach Gorazd said to me that it's a good race for me, since the same type of riders like me already won here in the World Championships in 2000. I just smiled and said that it might be possible in men's cycling but not in women's. I couldn't get it through my head. On the starting line, I had no expectations, it was the first time my head was that empty.

Was the race hard?
Yes, it was a hard race. Especially the second part – there were a lot of attacks by strong riders. I needed to merely follow these attacks, but it was the hardest role in my life.

What are your goals for the next season?
To improve with the team. To race well and trust myself. It would be great to achieve another WorldTour victory.

NOVI SCOTT ADDICT

THE NEW SCOTT ADDICT

Novi model kolesa Scott Addict je nastal kot sinteza izkušenj iz cestnega dirkanja in obsedenosti z nizko težo kolesa. Addict je dirkalno kolo s pravim ravnovesjem med agresivno geometrijo, skupno težo in prenosom moči. Pri tehtanju originalnega Addicta se je jeziček na tehtnici ustavil pri pičlih 790 g in še to v času, ko se nobenemu izmed proizvajalcev ni uspelo niti približati tej številki. Novi set okvirja in vilice je lažji še za nadaljnjih 100 g, kar znaša 8 % manj od predhodnika. S skupno težo okvirja in vilice pod 1 kg je Addict znova v povsem svojem razredu. Kolo, ki je odličen "plezalec", je tudi pregovorno dirkalno kolo, ki je dovolj lahko, da zadovolji tudi obsedence z željo po izredno nizki teži.

The new Scott bike model Addict is a wresult of synthesis of road cycling experience and of striving towards manufacturing a bike with the lowest possible weight. Addict is a racing bike boasting the right balance between aggressive geometry, joint weight and the transfer of power. The original Addict bike has a weight of mere 790 grams and all this in the times when no other manufacturer has come even close to the mentioned weight. The new bike frame and fork are additional 100 grams lighter, which is 8 per cent less than the weight of its predecessor, with the joint weight of the frame and fork less than 1 kilo. Addict is a true champion in its own class. This bike is an excellent "climber", a real racing bike that is light enough to meet the demands of all those obsessed with their bike's light weight.

NA KRILIH KD ROG
ON THE WINGS OF KD ROG

Kolesarsko društvo Rog (KD Rog) je kmalu po ustanovitvi v letu 1949 postalo prepoznano kot vrhunska organizacija za vzgojo kolesarskega podmladka. S svojimi številnimi aktivnostmi je ključno vplivalo na razvoj tekmovalnega in rekreativnega kolesarstva v Sloveniji. V bogato kolesarsko zgodovino Slovenije so se zapisali številni vrhunski tekmovalci, ki so se kalili v društvu, visok nacionalni in mednarodni ugled pa je KD Rog dobil tudi z organizacijo kolesarskih prireditev. Med slednjimi je daleč najbolj znan Maraton Franja BTC City, ki velja za praznik slovenskega kolesarstva.

KD Rog je z zlatimi črkami zapisan v slovensko zgodovino kolesarskega športa. V 50-ih in 60-ih letih je klub prirejal dirko Ljubljana–Ilirska Bistrica–Ljubljana, po letu 1960 pa tudi atraktivne hitrostne dirke, kjer so podeljevali nagrado za najvišjo doseženo hitrost. Bogato 68-letno tradicijo društva zaznamujejo številni veliki dosežki. K današnji prepoznavnosti Kolesarskega društva Rog so levji delež prispevali vrhunski uspehi Zorana Klemenčiča in Andreja Hauptmana. Prvi je leta 1998 osvojil naslov evropskega prvaka v kategoriji do 23 let, drugi pa se je leta 2001 s svetovnega prvenstva profesionalcev vrnil z osvojenim 3. mestom, odlično pa je Slovenijo zastopal tudi na olimpijskih igrah v Atenah leta 2004.

Vzgoji kolesarskega podmladka in vzdrževanju različnih starostnih selekcij KD Rog še danes posveča največ pozornosti. Najmočnejša moška selekcija je kontinentalna ekipa ELITE. V sodelovanju z družbo BTC in Mestno občino Ljubljana je KD Rog v letu 2014 omogočil še razcvet profesionalnega ženskega kolesarstva z ustanovitvijo ekipe BTC City Ljubljana. Slednja nastopa v elitni družbi dvajsetih najboljših ženskih ekip na svetu v tekmovanju Women's WorldTour in leto za letom dosega zavidanja vredne rezultate. Da bi zagotovilo razvoj kolesarstva med predstavnicami nežnejšega spola, društvo organizira tudi kolesarsko šolo za mlada dekleta.

Poleg spodbujanja kolesarjenja na tekmovalni ravni KD Rog organizira tudi številne dogodke, namenjene tako profesionalcem kot rekreativnim ljubiteljem športa. Najbolj prepoznaven dogodek je Maraton Franja BTC City, ki bo junija 2017 doživel svojo 36. izvedbo. Od prve izvedbe leta 1982 dogodek beleži več kot 85.000 aktivnih udeležencev, ki jih vsako leto ob progi spremlja na tisoče navijačev. Franja je del svetovne serije rekreativnih maratonov UCI Gran Fondo World Tour. Zaradi vrhunske organizacije, dolgoletne tradicije in pozitivne energije številnih prostovoljcev v svetu velja za vzorčen primer športne prireditve. KD Rog organizira tudi Maraton prijateljstva Ljubljana–Trst, ki združuje kolesarje in njihove podpornike ter navijače v zamejstvu.

Organizacija dogodkov, profesionalen pristop k vzgoji mladih kolesarjev, spodbujanje kolesarjenja na tekmovalni in rekreativni ravni ter promocija kolesarstva v Sloveniji in svetu. Z vsem naštetim je KD Rog eden najzaslužnejših akterjev razvoja slovenskega kolesarstva.

cycling talents. With its numerous activities, KD Rog played a key role in the development of professional and recreational cycling in Slovenia. The rich cycling history of Slovenia includes several top racers who grew as cyclists in KD Rog; the association gained great national and international renown also by organising cycling events, with Marathon Franja BTC City – a true festival of Slovenian cycling – being the most known by far.

In the Slovenian cycling history, KD Rog is written with gold letters. In the 1950s and 1960s, KD Rog organised the race Ljubljana–Ilirska Bistrica-Ljubljana, while after the year 1960 they also started organising attractive speed races in which they presented awards for the highest speed reached on the bike. The rich 68-year-long tradition of KD Rog has been marked by numerous great results. Contributing to today's recognisability of KD Rog were top results by Zoran Klemenčič and Andrej Hauptman. The first won the U23 European Championship title in 1998, whereas the latter came in 3rd in the UCI Road World Championship in 2001, and with his great racing flew the Slovenian flag high in the Athens Olympics in 2004.

Cycling Association KD Rog still pays a lot of attention to the upbringing of young cyclists and to the preserving of various age categories of cyclists. The most prominent men's selection is the continental team ELITE. In cooperation with the BTC Company and the City Municipality of Ljubljana, KD Rog in 2014 contributed also to the blossoming of professional women's cycling in Slovenia by establishing the BTC City Ljubljana team. The team is now part of the elite – the top 20 women's cycling teams in the world – as it competes in Women's WorldTour races and each year reaches enviable results. In order to ensure further development of women's cycling, KD Rog also organises a cycling school for young girls.

Besides encouraging cycling on a professional level, KD Rog also organises several other events intended for professional as well as recreational cyclists. The most prominent and renowned event by far is Marathon Franja BTC City which will mark its 36th edition in June 2017. Since its premiere edition in 1982, the event has seen the participation of more than 85,000 active participants, cheered upon by several thousand fans each year. Marathon Franja is part of UCI Gran Fondo World Tour. Franja sets the example of what a sports event should be, due to its top organisation, long tradition and positive energy of numerous volunteers. KD Rog also organises the Friendship Marathon Ljubljana–Trieste, which brings together cyclists, their supporters and fans in the neighbouring countries.

The event organisation, the professional approach in the upbringing of young cyclists, the support to cycling on a professional as well as recreational level, and the promotion of cycling in Slovenia and abroad. All this makes KD Rog one of the key factors in the development of Slovenian cycling.

Ko beseda nanese na kraje, ki se jih najbolj splača obiskati, lahko ob bok New Yorku, Londonu ali Barceloni povsem suvereno postavimo tudi Ljubljano oziroma Slovenijo. Na najbolj znanih turističnih destinacijah se namreč zavedajo pomembnosti nakupovalnega turizma, ki velja za enega ključnih dejavnikov gospodarskega razvoja in je pogosto tudi poglavitni motiv za potovanja. Slovenijo na ta zemljevid vse bolj trdno umešča družba BTC. S pametnimi BTC Cityji, visoko razvito logistično ponudbo Logističnega centra BTC ter ABC pospeševalnikom in modernim zagonskim mestom ABC Hub pa je BTC tudi popolna lokacija za poslovne priložnosti in razvoj. Poleti 2016 se je ljubljanski ABC pospeševalnik z ABC Venture Gates razširil še v München, od septembra 2016 pa v Silicijevi dolini v ZDA deluje tudi ABC Global Home Silicon Valley, s čimer BTC sega krepko preko slovenskih meja.

Privlačnost BTC Cityjev zagotovo povečujejo tudi trajnostni projekti, kot je Misija: Zeleno. V letu 2016, ko se je Ljubljana ponašala z nazivom Zelena prestolnica Evrope, je Misija: Zeleno spodbujala Ljubljančane k sajenju medovitega cvetja na okna in balkone v podporo mestnemu čebelarstvu, v okviru BTC Cityjev pa ponuja še številne druge zelene rešitve in lepše okolje za vsakogar.

Družba BTC že leta soustvarja tudi različne športne dogodke in aktivnosti ter podpira številne športnike in športnice. S kar 35-letno tradicijo se ponaša kolesarski Maraton Franja BTC City, iz katerega se je rodil tudi evropski projekt My Sport is Franja, ki združuje Slovenijo, Italijo, Hrvaško, Avstrijo in Slovaško. Tako sta se Maraton Franja in projekt Akademija Franja, ki združujeta šport z zgodovino znamenite bolnice Franja, razširila na evropsko raven.

V družbi BTC so v sodelovanju s partnerji prepoznali tudi potencial ženske energije in na športnem prizorišču začeli ustvarjati dve edinstveni zgodbi – profesionalno žensko kolesarsko ekipo in ženske smučarske skoke. Obe sta prerasli nacionalne meje in Slovenijo umestili na mednarodni športni zemljevid.

Kolesarska ekipa BTC City Ljubljana je imela samo v letu 2016 in samo ob trasah svetovne turneje, kjer so jih spremljali v živo, ter ob trasah tekem za uvrstitev na UCI lestvico več kot 4 milijone gledalcev, o naših kolesarkah pa so poročali tudi številni mediji doma in po svetu. Na programu Eurosport je bila na primer blagovna znamka BTC City neposredno izpostavljena več kot 3 ure! Ekipa se ob bogatem naboru vrhunskih uvrstitev ponaša z zmago na tekmi svetovne turneje WWT v francoskem Plouayu, s 7. mestom na ekipnem kronometru na svetovnem prvenstvu v Katarju, imela pa je tudi kar 4 predstavnice na olimpijskih igrah v Riu.

When talking about the most travel-worthy destinations, Ljubljana and Slovenia can easily be put in the company of New York, London, and Barcelona. Famous tourist destinations are well aware of the importance of shopping tourism, which is considered one of the key components of economic development, and is often also the main reason for a trip. In terms of shopping tourism, Slovenia has been put on the map ever more decisively by the BTC Company. In addition, BTC Company's smart BTC Cities, the BTC Logistics Centre with its highly advanced logistics services, the ABC Accelerator, and the modern start-up nexus ABC Hub are also perfect sites for new business opportunities and development. In the summer of 2016, the ABC Accelerator in Ljubljana branched out into Munich, Germany, with ABC Venture Gates, while in September 2016, USA's Silicon Valley became home to ABC Global Home Silicon Valley – with it, BTC has extended its reach far beyond Slovenian borders.

The appeal of each BTC City is heightened by BTC Company's sustainable projects, such as Mission: Green. In 2016, when Ljubljana was named the European Green Capital, Mission: Green encouraged the citizens of Ljubljana to plant melliferous flowers onto their windowsills and balconies in order to support urban beekeeping. Apart from that, BTC provides numerous other green solutions for a better environment for all within the framework of its BTC Cities.

For many years now, the BTC Company has been co-developing different sports events and activities, and supporting a number of athletes. Marathon Franja BTC City, for example, which gave birth to the European project My Sport is Franja – a project that brings together Slovenia, Italy, Croatia, Austria, and Slovakia – boasts a 35-year-long tradition. With the support of BTC, the renown of Marathon Franja and the Franja Academy, both of which link sports with the historic Franja Partisan Hospital, has spread all across Europe.

In cooperation with its partners, the BTC Company has also recognised the potential of female energy and started to shape two unique narratives – one telling the story of a professional women's cycling team and the other of women's ski jumping. Both have grown beyond national borders and have put Slovenia on the international map in sports.

In 2016 alone, and counting only UCI and WorldTour races, where people could watch them live, cycling team BTC City Ljubljana had an audience of more than 4 million people. Media reports on our cyclists flourished not only in Slovenia, but all over the world. On the Eurosport channel, for example, a live spotlight was shone on the BTC City brand for more than 3 hours. In addition to other elite results, the team won a WWT race in Plouay (France), got 7th place in the team time trial at the World Championships in Qatar, and had no fewer than 4 representatives at the Olympic Games in Rio.

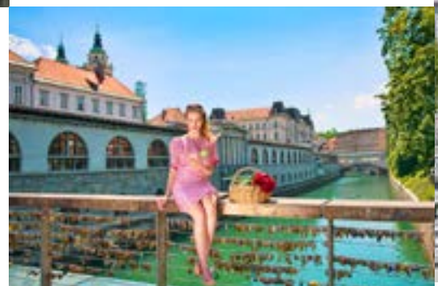
LJUBLJANA



IDEALNA ZA KOLO

IDEAL FOR CYCLING

Kdor živi v Ljubljani in rad kolesari, se bo zanesljivo strinjal, da živi v mestu, ki mu je pisano na kožo. Ne glede na to, ali je ležeren mestni kolesar ali strasten gorski kolesar. Ljubljana je namreč preprosto idealna za kolesarjenje. Je kolesarjem eno najbolj prijaznih mest, kar jih je. Vsem: tistim, ki radi kolesarijo sredi živahnega mestnega vzdušja; tistim, ki radi grizejo v strme asfaltne klance mimo ljubkih vasi in odmaknjenih domačij; tistim, ki se radi zatekajo v gozdove v iskanju miru; tistim, ki se radi vzpnejo v hribe in uživajo v razgledih; tistim, ki so jim ljube razgibane poti v naravi; tistim, ki jih zanima učenje ali piljenje spretnosti v urejenih parkih … Bržkone je ni prestolnice države, ki bi omogočala popolnejše kolesarske užitke tako vsestranskemu občinstvu.

Anyone who lives in Ljubljana and loves cycling will certainly agree that they live in a city that is ideally suited to their passion. Regardless of whether they are a leisured city cyclist or passionate mountain cyclist, Ljubljana is simply perfect for cycling. It is one of the most cyclist-friendly cities for everyone, including those who like to cycle in the midst of a lively city atmosphere; those who like to mount asphalt slopes past lovely villages and remote homesteads; those who like to resort to forests in search of peace; those who like to climb the hills and enjoy the views; those who like diverse trails in nature; those who are interested in learning or perfecting their skills in specially designed parks… There is probably no other capital that would provide a greater array of perfect cycling pleasures for such a broad population.

KOMAJDA ODKRIT EVROPSKI BISER

A VERY RECENTLY RECOGNISED EUROPEAN PEARL

Slikovita prestolnica Slovenije velja za komajda odkrit evropski biser. Njeno podobo so zaznamovala različna zgodovinska obdobja, najbolj pa opus svetovno znanega arhitekta, Ljubljančana Jožeta Plečnika. Njegov pečat je občutiti povsod, najbolj pa ob Ljubljanici, ki se vije skozi staro jedro, in kjer je Plečnik ustvaril tudi znamenito Tromostovje. Simbol Ljubljane je zmaj, ki kraljuje na Zmajskem mostu, najbolj prepoznavna značilnost prestolnice pa je Ljubljanski grad; z njegovega razglednega stolpa se ponuja najlepši razgled nanjo. Ljubljana slovi tudi kot zeleno mesto in je ponosna nosilka naziva Zelena prestolnica Evrope 2016, z vrsto lepih parkov in dobri dve stoletji starim botaničnim vrtom.

The picturesque capital of Slovenia is considered a European pearl that has only recently risen to the forefront of popularity. Its image has been developed through different historical periods and mostly by the creations of the world-famous architect Jože Plečnik. His imprint can be seen everywhere, but mostly along the Ljubljanica River, winding through the old city centre, and where he created the famous Triple Bridge. The symbol of Ljubljana is the dragon, which stands proudly upon the Dragon Bridge, while the most recognisable feature of the capital is the Ljubljana Castle; its viewing tower offers the most beautiful panorama of the capital. Ljubljana is also known as the green city and is the proud bearer of the European Green Capital 2016 title, having several beautiful parks and a more than two-decade-old botanical garden.

VODENI KOLESARSKI POTEPI

GUIDED CYCLING TOURS

Mesto in njegove zanimivosti, tako v njegovem središču kot v zaledju, zlahka doživite tudi na kolesu. Denimo z BicikeLJem, priljubljenim »samopostrežnim« sistemom najema koles. (Če uspete skleniti potep v eni uri, bo brezplačen!) Lahko se udeležite vodenih kolesarskih izletov po mestu: Turizem Ljubljana vas popelje po očarljivem starem jedru in njegovem obrobju (S kolesom na odkrivanje Ljubljane) in po sledeh velikega arhitekta (S kolesom po Plečnikovi Ljubljani). Poveže vas lahko tudi s katero od agencij, ki omogočajo vrhunska gorsko-kolesarska doživetja tako rekoč v mestu.

You can easily experience the city and its attractions, both the ones in its centre and the ones closer to the outskirts, on a bike. For example, by using BicikeLJ, a popular "self-service" bike sharing system. (If you manage to finish your tour in an hour, there is no charge!) You can participate in one of the guided cycling tours around the city: Ljubljana Tourism takes you around the charming old city centre and its outskirts (Exploring Ljubljana by bicycle) and in the footsteps of the great architect (Cycling tour around Plečnik's Ljubljana). They can also put you in contact with one of the agencies offering top mountain biking experiences practically in the city.

OD TEMATSKIH POTI DO BIKE PARKA

FROM THEMATIC PATHS TO THE BIKE PARK

Ljubljana z okolico premore vrsto tematskih kolesarskih poti. V mestu so urejene štiri: Pot spominov in tovarištva, ki dobesedno objema Ljubljano; Gozdna pot ob obrobju Rožnika, hribčka, ki se dviga nad osrednjim mestnim parkom Tivoli; Obvodna kolesarska pot, ki se vije po nabrežjih Ljubljanice; Plečnikova kolesarska pot, ki povezuje Plečnikovo dediščino. Družinam z otroki pa bo še zlasti prijetno na lepo urejeni kolesarski poti ob reki Savi. Potem so tukaj še urejeni kolesarski parki: za BMX navdušence (BMX park Ljubljana), gorske kolesarje (Bike Park Ljubljana) ter male in velike ljubitelje »pump tracka« (KoloPark). Mestni, cestni, gorski kolesar? Ljubljana ponuja vse za vsakogar!

Ljubljana and its surroundings feature several thematic cycling paths. Four of them are arranged in the city: the Path of Remembrance and Comradeship, literally embracing Ljubljana; the Forest Path along the lower slopes of Rožnik, a hill rising above the central city park, Tivoli; the Waterside Path, winding along the Ljubljanica banks; and Plečnik's Path, connecting Plečnik's heritage. Families with children will particularly enjoy the nicely arranged cycling path by the Sava River. There are also some specially designed cycling parks: for BMX enthusiasts (BMX Park Ljubljana), mountain bikers (Bike Park Ljubljana) and pump track fans of all ages (KoloPark). City, road, mountain cyclist? Ljubljana offers everything for everyone!
